b) Surrender: No Loyalty Addition is payable for policies surrendered except Jeevan Saral (Plan 165) in the manner as explained above.

Notes:

1. Jeevan Saral (Plan 165):

Under Jeevan Saral (Plan 165), provided at least 10 years premiums have been paid under the policy and policy has been in force for at least 10 years, the loyalty addition is payable on exits by maturity or death or surrender per thousand maturity sum assured for the complete duration for which the premiums have been paid. Provided further that loyalty addition is also payable if death claim occurs in the 10th year of the policy and the policy then is in full force.

For the purpose of determining the rate of loyalty addition for exits by death or surrender or maturity the duration in completed years for which premiums have been paid shall be considered. For example, if the premiums have been paid for say 11 years and 6 months, the rate of loyalty addition shall be corresponding to 11 years duration and the fraction shall be ignored.

In case the policy results in death claim for the 10th policy year, provided the policy is in force at the time of death, the duration for determining the loyalty addition shall be 10 years.

For exits by death or surrender or maturity, once the rate of loyalty addition for the complete duration for which the premiums have been paid has been determined as above this rate should then be applied on **the higher** of

“Accumulated / Discounted Value as the case may be, as described in Step-5 of the circular ref: Actl./2119/4 dated 21/09/2007 (such accumulated or discounted value calculated on the reduced maturity sum assured in case of earlier partial surrender(s) under the policy)”

and

“The maturity sum assured (reduced maturity sum assured in case of partial surrender(s) under the policy) multiplied by the ratio of the number of premiums paid to the total number of premiums payable under the policy”.

It may be noted that in case of partial surrender, the corresponding benefits should be proportionately reduced.

Needless to add that if all the premiums have been paid under the policy and the policy reaches maturity, the rate of loyalty addition shall be applied on the original

maturity sum assured if no partial surrender has been availed of or on such reduced maturity sum assured if partial surrender has been availed of.

2. In the case of policies with mode of payment of premiums other than yearly, unpaid premiums if any, falling due before the policy anniversary are deducted from the claim amount payable on death and hence they should be treated to have been received for this purpose.
3. In case of maturity claims, if no premiums have been paid during the last policy year, but the policy was in force for full sum assured on the policy anniversary prior to the maturity date, the claim is paid for full sum assured on the maturity date along with Guaranteed Additions, reversionary and interim bonus (if any) subject to the deduction of the unpaid installments of premium with interest, if any, for the last year of the Policy. Such policies will be eligible for payment of Loyalty Additions for full sum assured if other qualifying conditions stated herein are satisfied.
4. Where a policyholder discounts the policy within one year preceding the date of maturity, the policy will be eligible for Loyalty Additions provided other qualifying conditions are satisfied.
5. The policies for which death claim is payable as per Claims Concession Clause, the Loyalty additions would be payable provided other qualifying conditions stated in this circular are satisfied.
6. The policy under which free insurance cover is available and if death takes place during free insurance cover period, loyalty addition for the period of free insurance cover for which premiums have not been paid would not be payable.

7. Additional interest under Bima Account

Provided the policy is in-force, 1.50% of policyholder account value on the date of maturity or on the date of death during the last policy year for policy term 6 & 7 years has been declared under Bima Account I (Plan 805).

No additional interest rates have been declared under Bima Account II (Plan 806).
